

Color Layering Dies by Spellbinders

S4-922 Layered Palm Tree

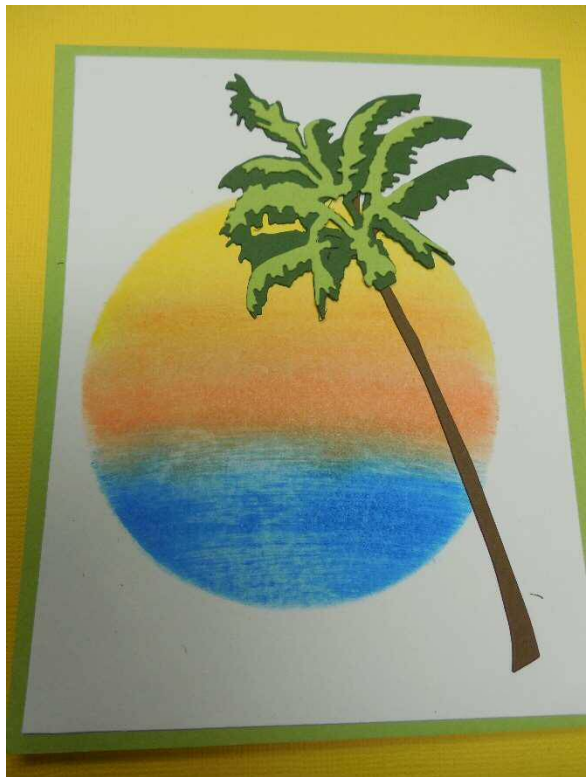

S4-921 Layered Rose

We all love color layering stamps like the Hero Arts series these past couple years, but now we have dies that work on the same idea! All you do is choose paper colors that contrast and glue the die cut pieces on top of each other.

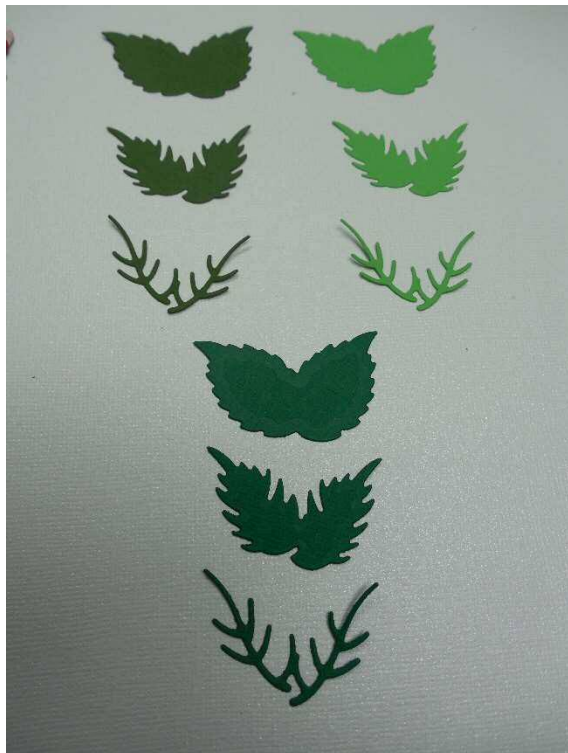

Die cut a circle in scrap cardstock. Position on white cardstock and apply gelatos or Tim Holtz Distress Crayons through the opening to make your sunset. We like to apply the gelatos with a baby wipe.

Remove mask.

Mat on green cardstock and glue tree in place

Cut and assemble the rose in much the same manner. As you can see, you can mix and match colors to get different effects!

Try these other fun paper layering dies! The bunnies are my favorite!
