

Geometric Springtime

Supplies:
Tim Holtz Geo Spring dies
Gilding polish
Black, white, and blue
Cardstock
Die cutting machine of
choice
Glue or Stick-it Adhesive
sheets

- 1) Cut 3 pieces of white and 1 piece of black cardstock large enough to fit the die centered in the panel. (These will be your finished card panels)
- 2) Take 2 of the white panels and apply gilding polish as shown in the photo. Use any colors that please you.

3) Cut the Geo Spring hummingbird (or bunny or butterfly) in the center of 1 black and 1 white panel. Keep the panel and the cut out!

4) Attach your gilded pieces behind the opening in the panels.

5) Glue the Geo hummingbirds into the openings, black on white and white on black. You can use Stick-it adhesive prior to die cutting, Two-way glue, or precision glue bottle with liquid glue

6) Mat on blue cardstock or color of your choice. Attach to card front or scrapbook page.
