

Big Bunny Tag

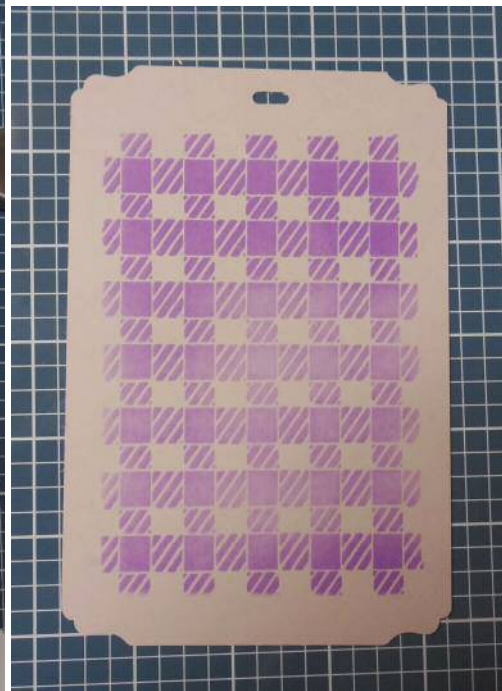

Materials:

- 1) Cottontail Die
- 2) Gingham Stencil
- 3) Emboss folder
Doily or Crackle
- 4) Tag Punch
- 5) Distress Ink
- 6) Blending brush
- 7) Kraft Cardstock
- 8) twine
- 9) Make Art Staytion
- 10) Pop dots
- 11) White cardstock

Cut cardstock 4" x 6"
 Place on Make Art Stay-tion and secure in place with stencil centered over cardstock. Notice that the magnetic ruler is holding everything at the base and two of the round magnets are at the top. Use the blending brush to apply ink through the stencil. Reload ink and apply over until desired depth of color is achieved.

Use the Punch Bunch Tag Maker Punch to nip each corner, **REMEMBERING TO FLIP TO THE BACK SIDE** on each opposing corner to punch the mirror image. Then punch the hole for the twine at the top of the tag.

Die Cut and Emboss Bunny and Bow from white cardstock. Use blending brush to edge the bunny in matching ink color. Use brush to color the bow entirely solid in the same color. Notice how different the bunny looks whether you use the Crackle (above) or Doily (below) Embossing folders.

Position bunny on tag with pop dots. Put bow on bunny also with pop dots for extra dimension.

Tie twine in a double knot at the top. Untwist and fray the ends as shown.

Happy Easter !
